

Felix Liando

I'm a recent Computer Science graduate from Universitas Widya Dharma Pontianak with a strong passion for learning and the ability to quickly adapt to changes. I'm currently focusing on Java programming using Spring framework while also having experience with Flutter for mobile app development.

Projects

Classroom Control System • University's Thesis

Sep 2024 - Dec 2024

The system is designed to enable users to control air conditioners and lights in university's classroom. This system operates by integrating an Android mobile application, Realtime Database, and Internet of Things (IoT) technology.

Point Of Sales Application • Personal Project

Apr 2024 - Jun 2024

The sales application is specifically designed for cafes or restaurants. It includes features such as saving transaction data with detailed information, displays of daily, monthly, and annual sales summaries, and integration with thermal printers for printing transaction receipts. Additionally, the application enhances operational efficiency by providing real-time sales tracking and simplifying bookkeeping processes.

Experience

Vice Leader • Widya Dharma University's Computer Club

2023 - 2024 | Pontianak, Indonesia

I serve as the Vice Leader of Widya Dharma University's Computer Club. In this role, I have delivered educational materials to club members and managed essential documentation required for organizing events and activities.

Assessment & Question Development Team • Widya Dharma's Coding Competition 1 & 2

2024 | Pontianak, Indonesia

I was part of the team responsible for developing and evaluating questions for a coding competition, ensuring the challenges were engaging and aligned with the competition's objectives.
